Printing tips. Print at **Actual size (100%)**. Card stock makes paper ornaments much sturdier. Color first, then cut. Punch the little circle at the top and thread ribbon through. **One more thing:** write the name and the year on the back of every ornament. You'll be glad you did.

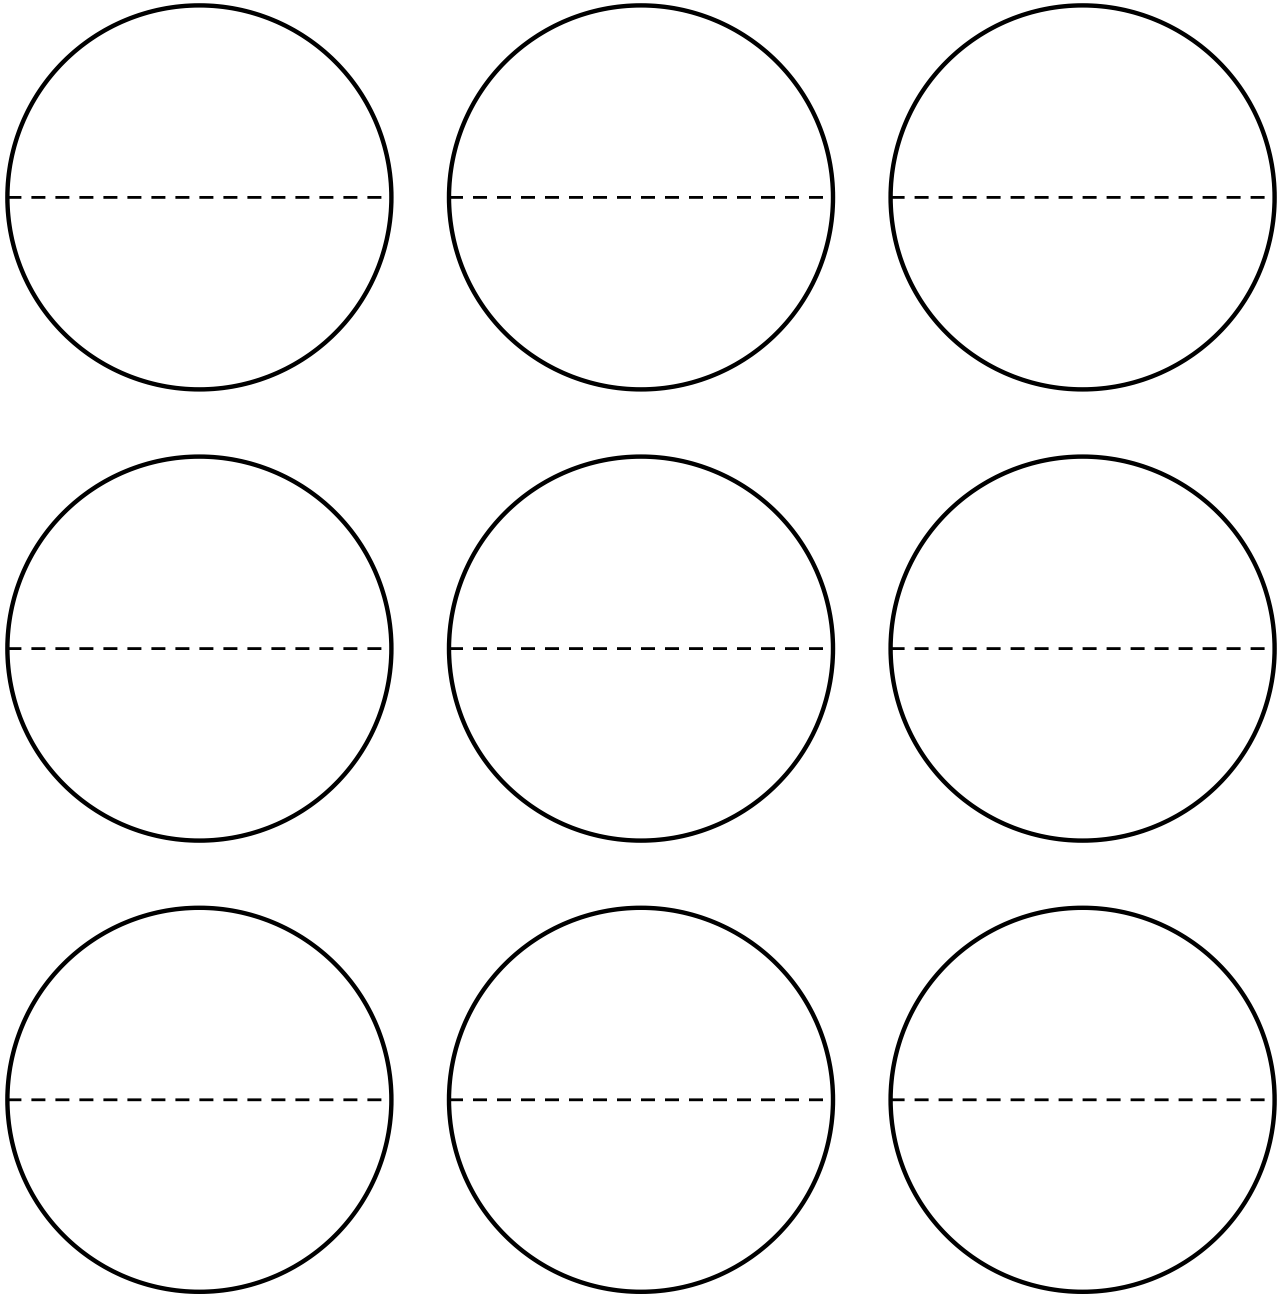

Color, cut out, punch the hole and add a ribbon loop

Plain outlines: color, decorate, or trace onto felt or card

Cut out 8 circles (there's a spare). Fold each in half on the dashed line.

1. Fold every circle in half. Patterned side out.
2. Glue the back of one half to the back of the next circle's half.
3. Keep going until all 8 are joined in a fan.
4. Tuck a ribbon loop in the middle, then glue the last half to the first.

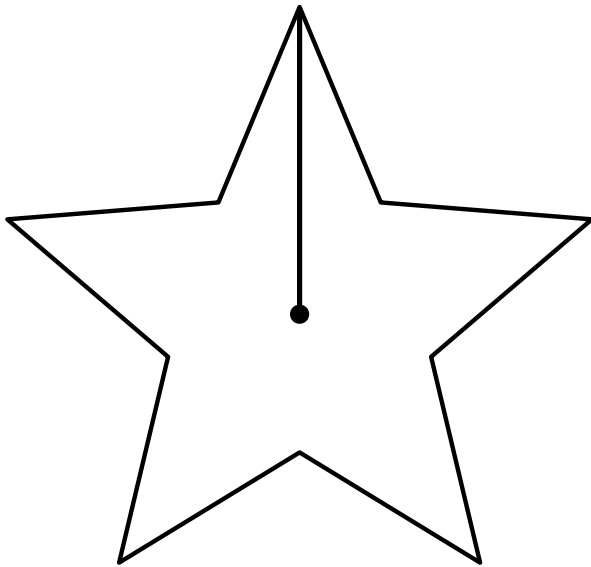

spare

Circles are 2 in (5 cm) across. Wrapping paper or patterned card looks great.

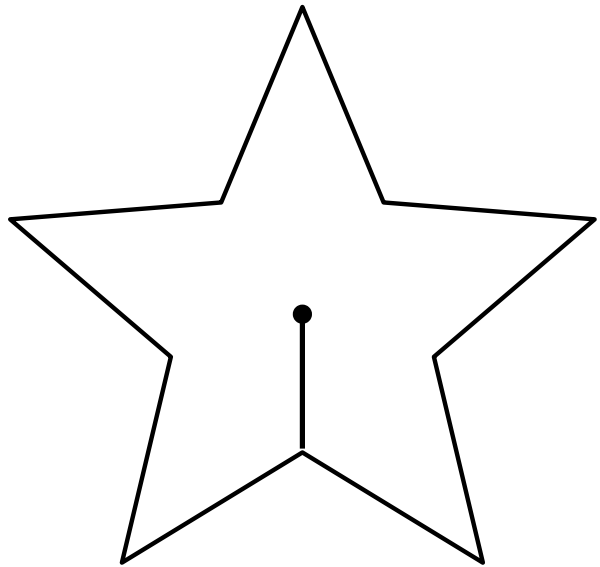

Slot-Together Stars

Ornament 3

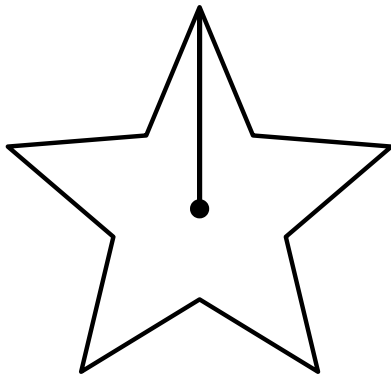

Cut out both stars and cut the slits. Slide Star B down onto Star A.

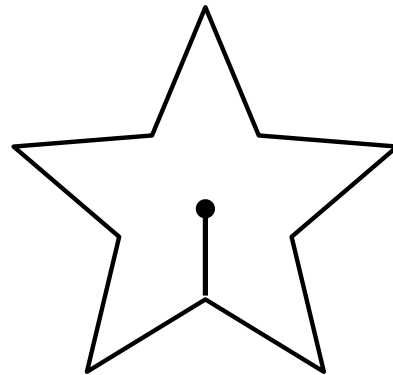

Star A: cut from the top to the dot

Star B: cut from the bottom to the dot

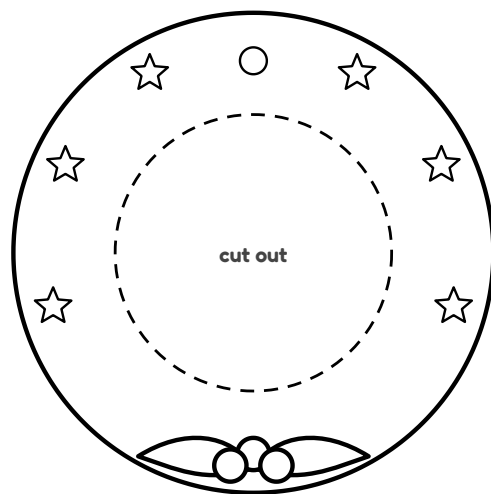

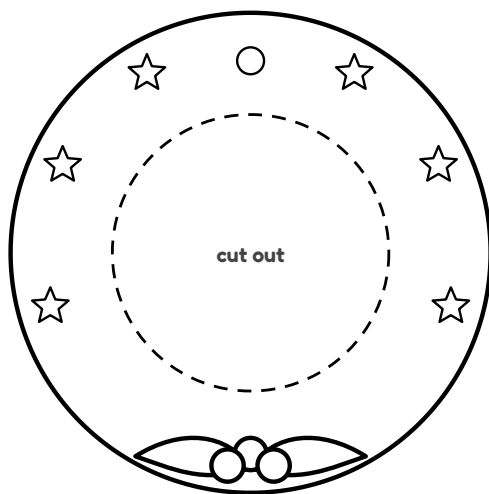

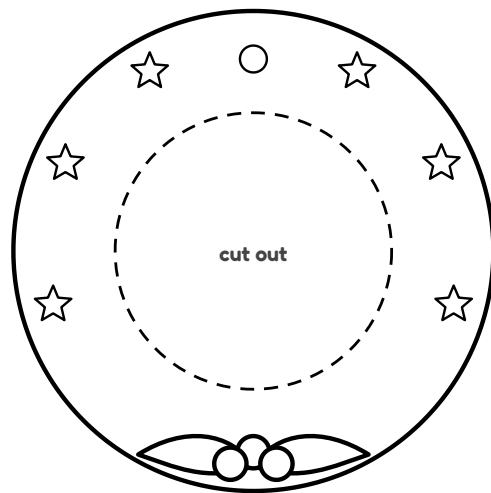

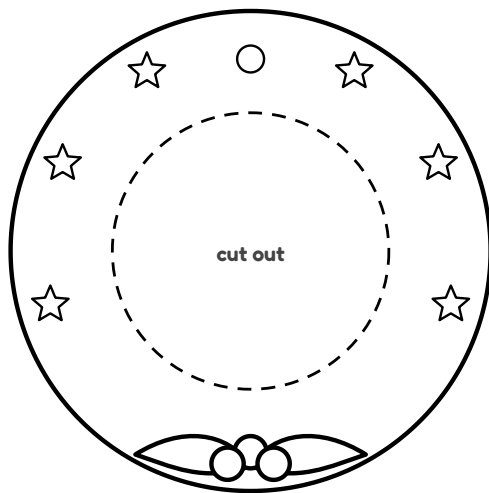

Star A: cut from the top to the dot

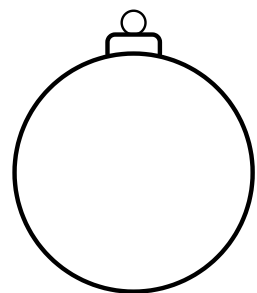

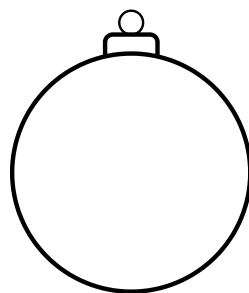

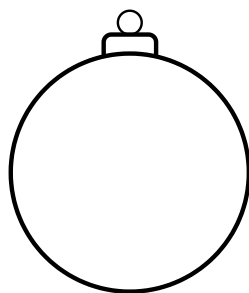

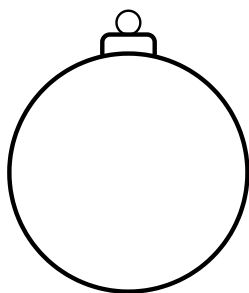

Star B: cut from the bottom to the dot

Tip: color both sides before you cut. The star is seen from every angle once it's together.

Photo frames: cut out the middle and tape a photo behind. Baubles: trace onto old Christmas cards.

Salt Dough

You need

1 cup plain flour

1/2 cup salt

About 1/2 cup water

Steps

Mix flour and salt. Add water bit by bit until it's like play dough.

Roll 1/4 in (6 mm) thick, cut shapes, poke a hole with a straw.

Bake 250°F (120°C, fan 100°C)

for 2 to 3 hours until hard.

Cool, then paint.

Not food. Keep it from pets!

Cinnamon Dough

You need

1 cup ground cinnamon

About 3/4 cup applesauce

1 tbsp school glue (optional)

Steps

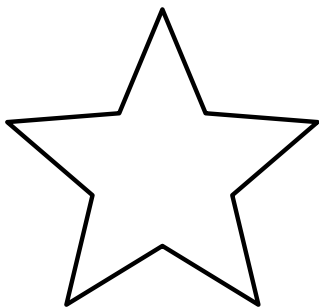

Mix into a stiff dough.

Roll between two sheets of baking paper, cut shapes and poke a hole with a straw.

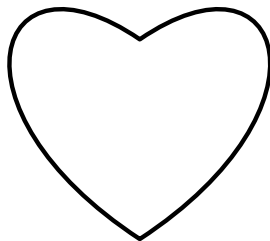

Bake 200°F (95°C) about 2 hours, turning halfway. Or air dry for a few days.

Smells lovely. Not edible.

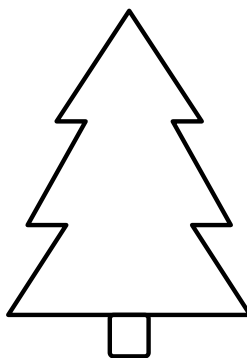

No cookie cutters? Trace these onto baking paper, lay them on the dough and cut round with a blunt knife.
