Before you start

- Solid lines are for cutting. Dashed lines are for folding. Grey tabs get glue.
- Print the dreidel on card stock. Thin paper collapses and won't spin.
- Every menorah here has eight candles plus the taller shamash.
- Kid-made menorahs are decorations. Never put real candles in paper, clay or wood a child has made.

Spinning Paper Dreidel

Print on card · Craft 6 and 16

How to make it

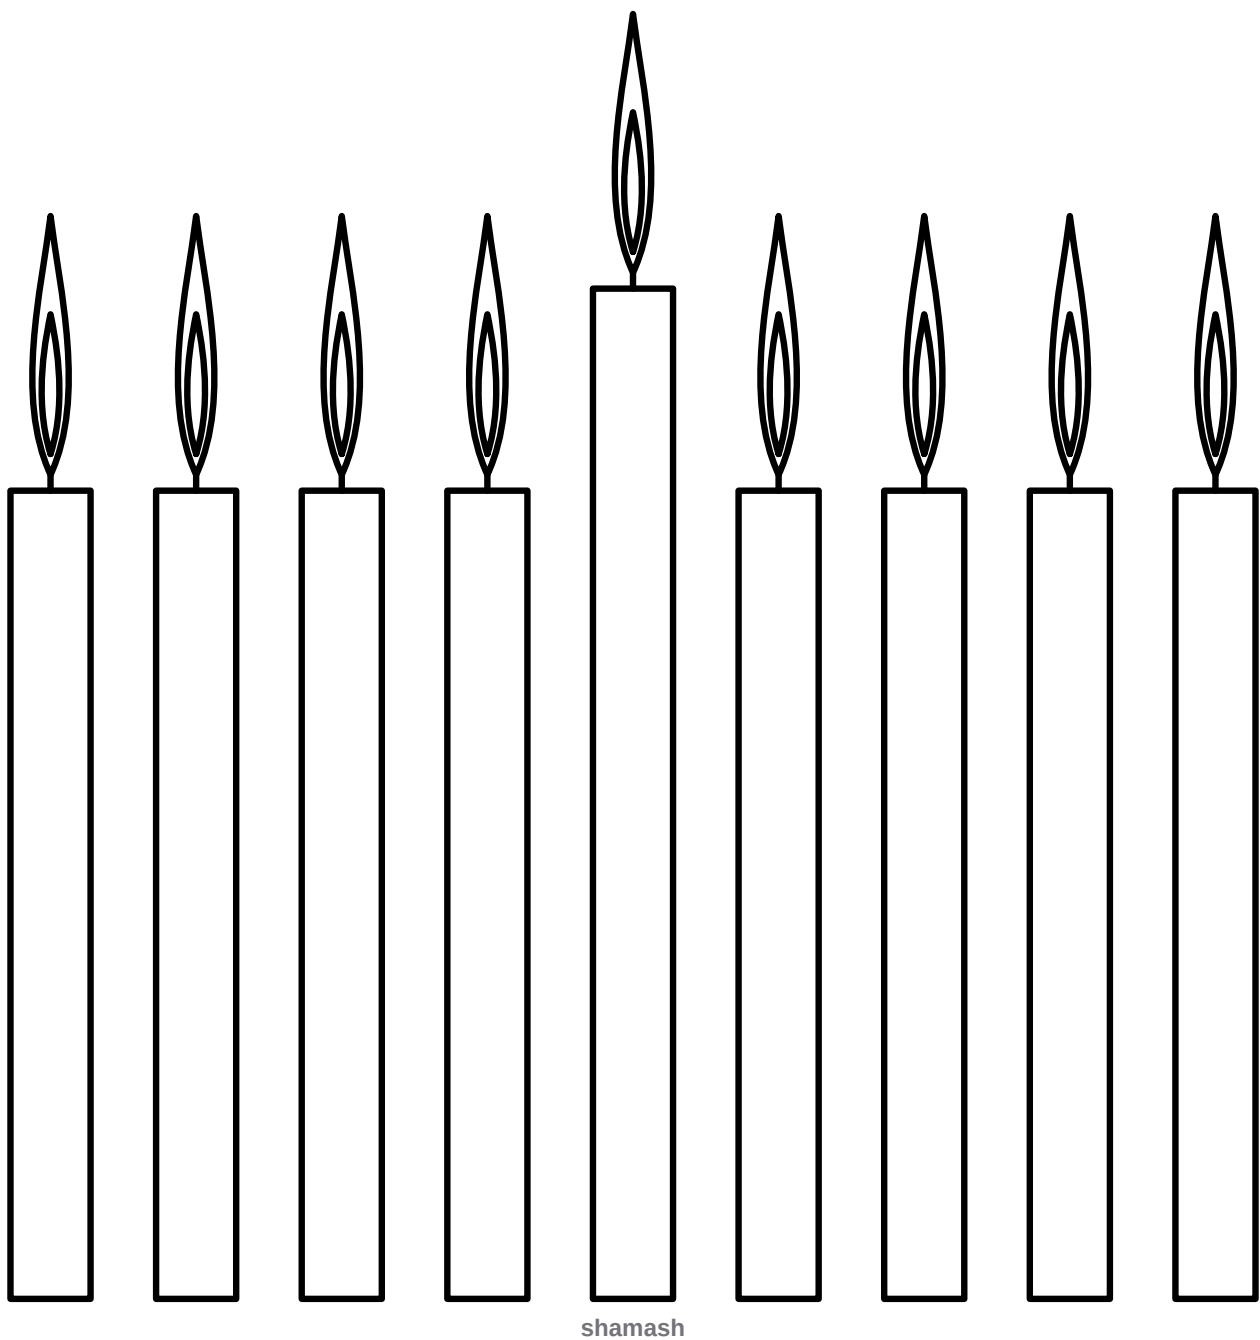

1. Print on card. Cut along the solid lines.
2. Fold every dashed line. Glue the side tab to make a square tube.
3. Fold in the four points and glue them into a pyramid at the bottom.
4. Glue the top square shut. A grown-up starts a hole on the dot.
5. Push a short pencil down through the dot until its point comes out of the bottom tip. Spin!

— cut - - - fold Grey tabs get glue. Keep the pencil straight and centered or it won't spin.

How to Play the Dreidel Game

Everyone starts with the same number of gelt, usually 10 or 15, and puts one in the middle to make the pot. Take turns spinning. The letter facing up tells you what to do:

	Nun	Nothing happens. Next player's turn.
	Gimel	You take the whole pot.
	Hei	You take half the pot.
	Shin	You put one in the pot.

When the pot is empty, everyone puts one back in. Families often have their own house rules.
