Before you start

- 1 Print at actual size (100%), not "fit to page".
- 2 Solid lines are for cutting. Dashed lines are for folding.
- 3 Color the poppies red with black centers and the leaves green, or any way your child likes.

Prints on US Letter and A4. Instructions for each craft are on craftifybud.com.

Poppy Coloring Page

Red petals, black centers, green stems

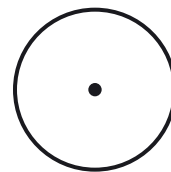

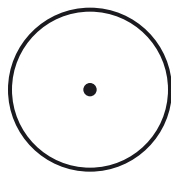

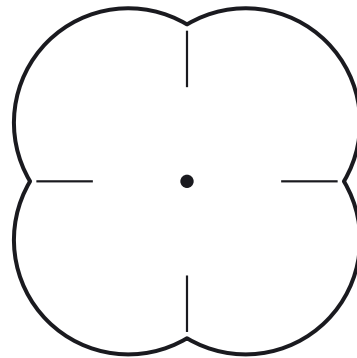

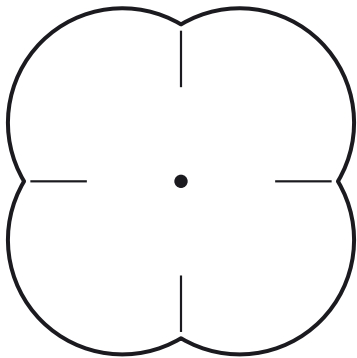

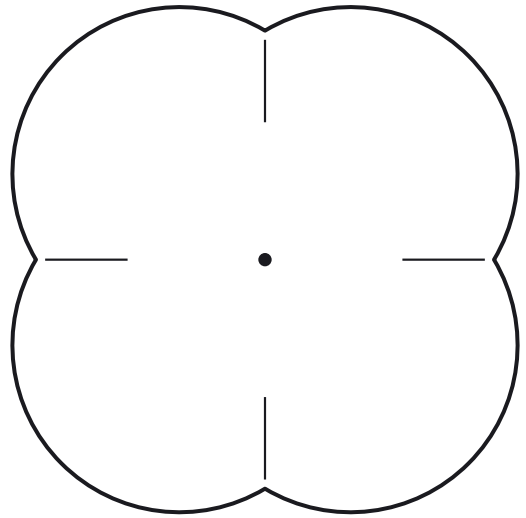

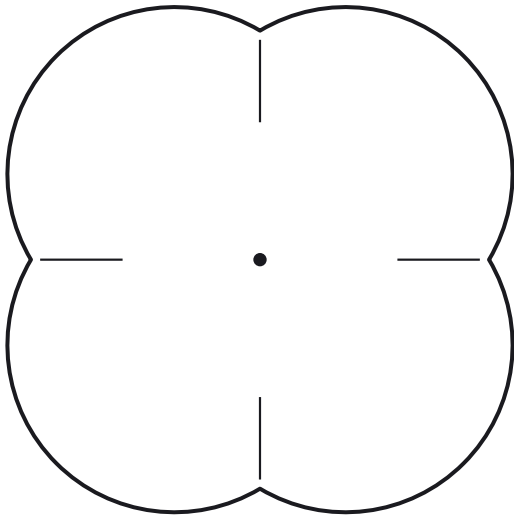

Big petals for little hands. Crayons or chunky markers work best.

Layered Paper Poppy

Cut out, stack big petals, small petals, center, and push a split pin (brad) through

Color the petals red and the center black before you cut.

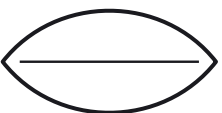

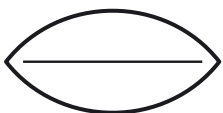

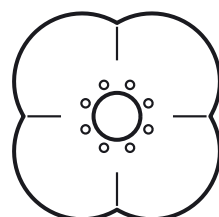

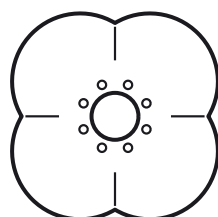

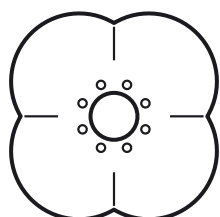

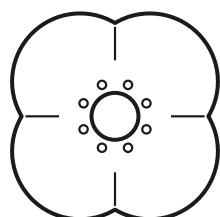

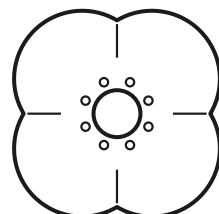

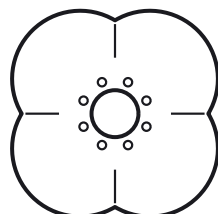

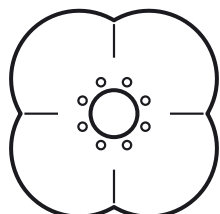

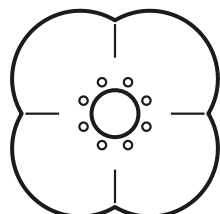

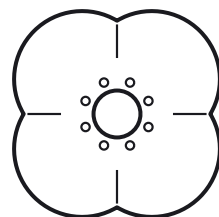

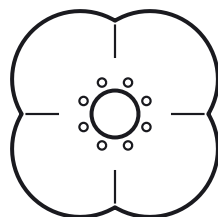

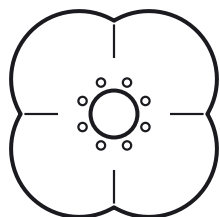

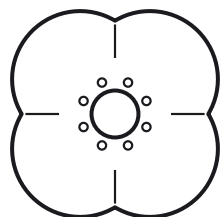

Poke a small hole at each dot with a pencil (grown-up job), then push the split pin through all three.

Gently curl the petals up so the poppy looks like it's opening.

Wreath Poppies and Leaves

Glue around a paper plate ring, or tape in a window

12 poppies and 12 leaves fit around a 9-inch paper plate with the middle cut out.

Thank-You Card for a Veteran

Cut along the outside, fold on the dashed line, write inside

Thank You

for your service

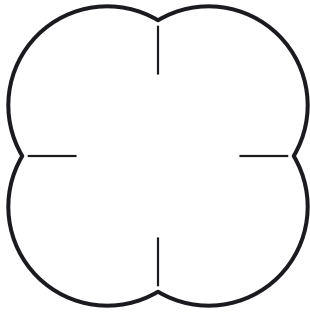

The top half folds behind. Write or draw your message inside. First name only if you're mailing it.

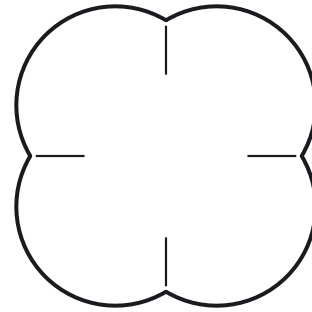

Felt Poppy Pattern

Pin the pattern to felt, cut around it, then stitch the layers together

How to make it

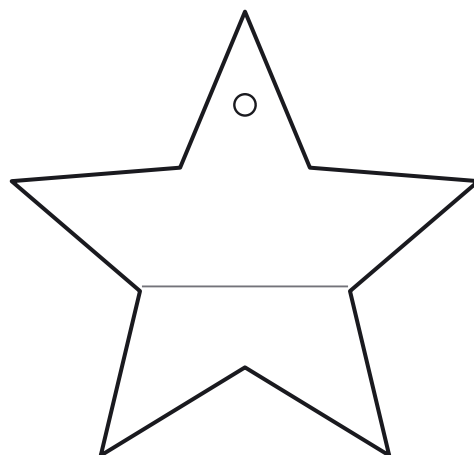

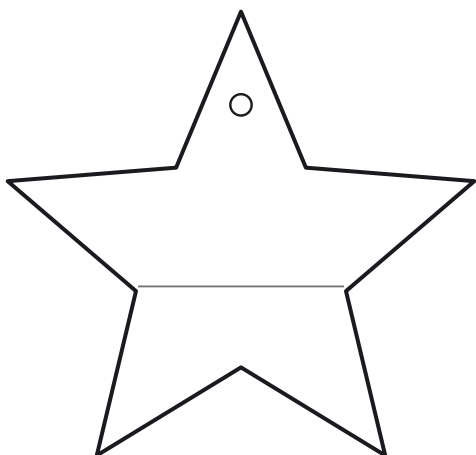

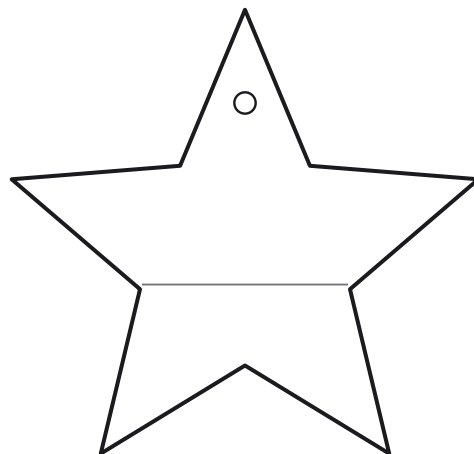

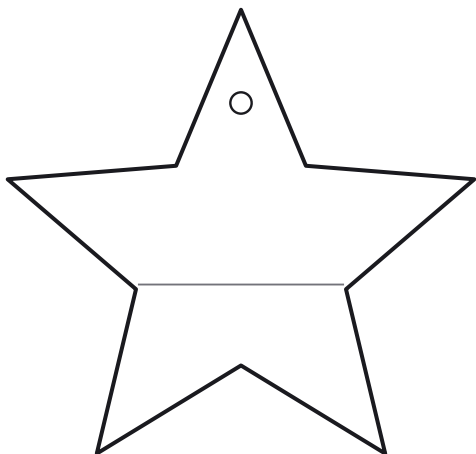

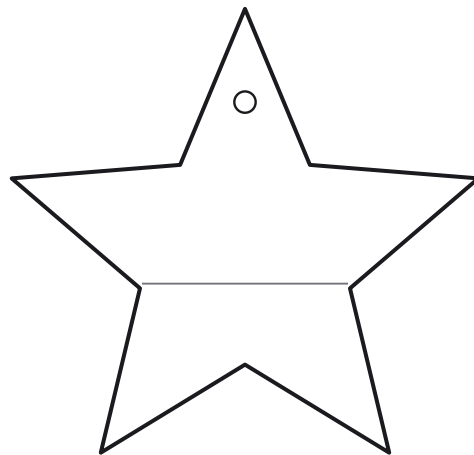

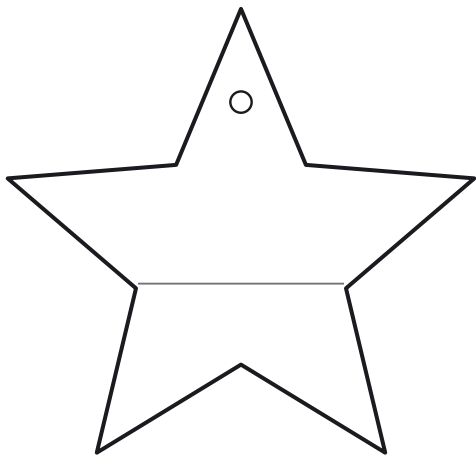

1. Stack big petals, small petals and the center.
2. Sew a few stitches through the middle of all three.
3. Sew a safety pin to the back, or ask a grown-up to hot-glue a pin back on.
4. Two sets are on this page, so you can make one for a friend.

Ages 9 to 12. Sharp needles and safety pins need a grown-up nearby.

Star Garland

Write one word of thanks on each star, punch the dots, and string them up

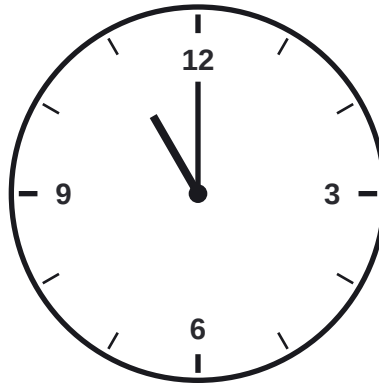

Word ideas: brave, kind, thank you, hero, helper, remember.

My Quiet Minute

On 11 November at 11 o'clock

I stayed quiet for _____ minute(s).

During the silence I thought about _____
